

# SARDIS PRESBYTERIAN CHURCH

CHARLOTTE, NORTH CAROLINA  
 OPUS 2233 • 3 MANUALS, 72 RANKS  
 THE REUTER ORGAN COMPANY

*The organ for Sardis Presbyterian Church was designed to integrate seamlessly with surrounding architectural elements, unifying the entire sanctuary without overpowering the central liturgical fixtures. Its generous tonal resources include a wealth of reed stops. The antiphonal division is located in the rear of the nave in a beautifully proportioned case. The Trompette en Chamade takes its place above a carving of the seal of the Presbyterian Church, which, like the chancel cross, was handcrafted by a member of the congregation.*
