

# EDGEBROOK LUTHERAN CHURCH

CHICAGO, ILLINOIS

OPUS 1058 • 2 MANUALS, 25 RANKS

THE REUTER ORGAN COMPANY

*Reuter Opus 1058, a two-manual organ with 15 ranks of pipes, was built in 1953 for Edgebrook Lutheran Church. In 2010, a devastating fire destroyed much of the roof, balcony, narthex, and rear of the sanctuary. The chancel area and organ chambers were damaged by heat, smoke and water. Ultimately, the organ was entirely removed to be refurbished and enlarged in conjunction with the renovation of the sanctuary.*

*Most of the original pipes were reused – a number of metal pipes received heat damage repairs in our pipe shop – and the windchests were carefully restored. After the existing components received two surface cleanings, ozone treatments removed any traces of smoke. The organ was entirely releathered, a new console was constructed using the existing console shell, and new chests and pipework were added to increase the instrument's versatility for its beautifully restored home.*
