

# OUR LADY OF THE LAKE

ROCKWALL, TEXAS

2 MANUALS, 25 RANKS

THE REUTER ORGAN COMPANY

*Reuter Opus 2204 was built for Our Lady of the Lake Catholic Church in Rockwall, Texas. This organ was designed as a completely new instrument and was installed during December of 2000. The organ is located in chambers on either side of the Chancel. Each has two sound openings, one facing the choir and the other facing the nave, for effective tonal projection. The Great division is opposite the Swell, with the Pedal stops divided across both sides. Pedal principal pipes, fashioned from flamed copper and framed with oak casework, create an attractive façade that coordinates well with the surrounding architecture and fixtures. The carefully conceived, 25-rank specification accommodates a wealth of literature with ease.*
