

THIRD BAPTIST CHURCH

SAINT LOUIS, MISSOURI

4 MANUALS, 70 RANKS

COMPREHENSIVE RESTORATION OF
EXISTING KILGEN/MÖLLER ORGAN

The organ at Third Baptist Church was originally built by the Kilgen Organ Company in 1930. It was renovated and expanded by the Möller firm in 1949 to become a four-manual instrument with 59 ranks of pipes. The organ has been re-designed by Reuter engineers and the tonal resources expanded to 70 ranks. All new mechanical components were provided, including framing, winding and windchests. A complete on-site tonal regulation has restored the original grandeur of this monumental instrument.

GREAT
