

ST. PAUL'S ON THE GREEN (EPISCOPAL)

NORWALK, CONNECTICUT

E. M. SKINNER OPUS 753

REUTER RENOVATION 50308 • 3 MANUALS, 53 RANKS

The organ project for St. Paul's on the Green included a complete restoration of Skinner Opus 753, which was originally built for St. Paul's in New Rochelle, New York and moved to Norwalk in 1992. New pipework and chests were carefully melded with old to completely enhance the organ's tonal scheme. A solid-state switching and combination system was also provided for the restored Skinner console. The graceful front case and façade are newly designed. One of the added stops, the St. Nicholas Trumpet, a polished copper horizontal reed named in honor of Rector Nicholas G. Lang, is mounted over the west door.
